

## BioResource Introduces New PEKANA Remedy for Gingivitis

# PEKANA®

Taking health a step further.

PEKANA's **VULPUR oral drops for gingivitis and mucosal bleeding** is now available in 50 ml bottles. The remedy also supports recovery from tooth extraction wounds.

PEKANA recommends that adults take 15–20 drops three times per day. Patients should also use **VULPUR** as a daily mouth rinse by placing the drops in 4 ounces of water and swishing it over the gums.

**VULPUR's** eight homeopathic-spagyric active ingredients include:

- Argentum nitricum 6X – for bacterial infections
  - Armoracia rusticana 4X – for inflamed, bleeding gums
  - Cinnamomum verum 12X – provides disinfectant properties
  - Kreosotum 6X – for bleeding, infected, swollen, painful gums
  - Thlaspi bursa pastoris 4X – astringent, stimulates the excretion of urinary organs.
  - Calendula officinalis 8X – for wound healing
  - Achillea millefolium 8X – for bleeding gums
  - Salvia officinalis 8X – anti-inflammatory for the gums
- Each bottle contains 18% alcohol by volume.
